The Womanswork Story

We're a woman owned family business and for over 35 years we've been creating work and garden gloves designed to fit women's hands.

This is what's important to women:

- Good Fit: women tend to have narrower hands and longer fingers than men (women don't want downsized men's gloves!)
- Durability around the fingertips, because we tend to use our fingertips to dig in the garden.
- Convenience of machine washable, fast drying and color fast materials.
- Attractive colors and styling, from a woman's point of view.

All of our styles for gloves and hats are Womanswork Originals.
